EDUCATION

B. Tech in Computer Science and Engineering (AI/ML) K.R. MANGALAM UNIVERSITY,Gurugram	June 2022 - June 2026 Gurugram, Haryana
Data analytics professional with generative Ai Ducat school of AI,New Delhi	Sep 2025 - June 2026 New Delhi
The Lawrence Public School,New Delhi - Passed 10th standard with 75% - Passed 12th standard with 91%	April 2020 - April 2022 New Delhi

WORK EXPERIENCE

ZidioDevelopment Data analytics intern - Assisted in preparing and refining datasets to ensure accuracy and usability for analysis. - Designed simple yet effective charts and dashboards to communicate insights clearly. - Applied Python and SQL for data handling, analysis, and reporting tasks.	July 2025-August 2025
Mahalaxmi Digital Services Data analyst - Analyzed business and operational data using Python, SQL, Excel, and Power BI to identify trends, patterns, and actionable insights. - Developed and maintained interactive Power BI dashboards and reports, enabling teams to monitor key performance indicators and make data-driven decisions. - Performed data cleaning, transformation, and validation to improve data accuracy, consistency, and reliability across reporting workflows. - Created SQL queries and Excel-based analyses to extract, organize, and interpret large datasets, supporting regular business reporting and decision-making. - Collaborated with team members to understand business requirements, prepare analytical reports, and communicate findings through clear data visualizations and insights.	August 2025-july2025

PROJECTS

Crime pattern analysis and prediction for smart cities Python, Streamlit,Pandas, Numpy,Machine learning Deploy link - Built a Streamlit-based web app for analyzing and predicting urban crime patterns using Python and machine learning. - Applied data preprocessing, EDA, and visualization techniques to identify trends based on crime type, location, and time.	Nov 2025
AI Based smart traffic monitoring and congestion prediction system Python, Open Cv, Numpy,Machine learning,Data Analytics Deploy link - Developed an AI-based Traffic Monitoring & Congestion Prediction System using Machine Learning techniques. - Implemented real-time vehicle detection and traffic density analysis using computer vision.	March 2026
Personal Portfolio Website Frontend,UI/UX,Full-Stack Deploy link - Developed a responsive personal portfolio website using React.js and CSS to showcase professional skills, projects, education, and experience. - Built reusable and modular React components to create a structured, maintainable, and scalable website architecture. - Implemented responsive layouts and modern UI styling to ensure a consistent experience across desktop, tablet, and mobile devices. - Designed interactive sections for About Me, Skills, Projects, Experience, Education, and Contact, providing recruiters with an organized overview of my profile. - Applied modern front-end development practices, including component-based design, responsive CSS, clean code structure, and user-focused interface development.	July 2026

TECHNICAL SKILLS

Programming languages : Python,Sql,JavaScript
Databases: Mysql
Cloud and devops: Git, AWS
Frontend Technologies: React.js,HTML5,Talwind CSS
Backend Technologies: Node.js,RESR APIs
Libraries: Pandas,Numpy,Matplotlib,Seaborn,Scikit-learn
Other skills : Power BI, Tableau, Statistics,Advance excel

CERTIFICATIONS

Data Analysis with Python – IBM SkillsBuild	Sep 2024
Data Visualization with Python – IBM SkillsBuild	Sep 2024
Python 101 for Data Science – IBM SkillsBuild	Sep 2024
Big Data Engineer – IBM Career Education Program	Nov 2024
Clean Coding With Python – IBM Career Education Program	Nov 2024
